RESEARCH AND INNOVATION IN HYPERTHERMAL WATER

La Serenissima Hyperthermal Cosmetics chooses for its treatments the most precious ingredient on Earth: the WATER.

Our hyperthermal water is unique in the world.

Life, Health, Beauty in its purest form.

This miraculous water is located in Abano Terme, Italy, a Roman thermal colony at the foot of the Euganean Hills, volcanoes that are partly extinct but with a boiling and generous heart, rich in minerals and very pure substances that man has never contaminated.

We base our philosophy on a certainty:

to be truly effective, a cosmetic must contain absolutely special, natural, pure elements rich in beneficial substances.

In addition to hyperthermal water, we combine innovation and research, the certainty of offering a line of products that embodies the best that Italian cosmetic science can offer.

ALWAYS WITH YOU

When skin function is compromised and loses resistance to aggressions caused by external environmental factors, excessive heat, thermal shock, sun, too humid / dry air, La Serenissima Hyperthermal Water contributes to the correct health of the skin microbiota and gives well-being thanks to minerals ready to restore the balance of the skin.

Effectively fights aging.

100 ml to carry in your bag, on the road, in the car, in the gym, to use whenever your face is parched, tired, dehydrated.

Eco - spray, a sustainable packaging without gases that damage the environment.

CLEANSING

Remove makeup impurities, dust and pollution.

EXFOLIATION

Eliminate dead cells from the skin surface and quickly promote cell turnover

DETOX

Absorb harmful substances from the skin and return minerals and natural elements that aging stresses send in deficiency

STIMULATION

Supply the skin with specific substances that the skin needs to regain and maintain a state of well-being

NATURAL LIFTING

Counteract the signs of aging by naturally inhibiting muscle contraction and expression lines.

STOP WRINKLES

Deeply moisturize and visibly reduce fine lines and wrinkles in the area around the eyes with a lifting, toning and film-forming action.

REBALACING

Calm and relieve the discomfort typical of delicate skin sensitized by external agents, heat, sudden changes in temperature, hypersensitivity to make-up

STOP SPOTS

Reduce the formation of free radicals, brighten and lighten and eliminate blemishes and blemishes from acne or hair removal through multi-level mechanisms.

COUNTOUR FACE

Plump and redefine the contours of the face. Promote the increase in tone-elasticity and the plant collagen compacts the contour of the face.

NEVER WITHOUT CREAM

Give an intense moisturizing and restorative action without weighing it down and at the same time creating a smoothing matte effect on the complexion.
